### **DETAILED ACTION**

- a. This action is responsive to communications: application filed on July 30, 2003, IDS filed on July 30, 2003.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 and 14-28, drawn to a method to build an auxiliary ordered tree, classified in class 707, subclass 100.
- II. Claims 8-13 and 29-30, drawn to a method to update (insert/delete) data to a hierarchical document, classified in class 707, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as a method to build an auxiliary ordered tree. See MPEP § 806.05(d). Invention in Group II has separate utility and a method to update (insert/delete) data to a hierarchical document.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Examiner has informed Applicant's attorney about the election/restriction on both January 27, 2006 and February 2, 2006. No election was made during telephone conversation with Applicant's attorney James Howard on February 2, 2006.

Art Unit: 2166

The response time for this Office Action is **one month**.

Applicants are advised that the reply to this requirement to be complete must include and election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
